Confirmation Of James' Cabinet May Be Held Up

Political Animosity In Senate Threatens To Delay Approval

REORGANIZATION OF SENATE IS ISSUE

Two-Thirds Vote Of Senate Is Needed To Confirm Cabinet Appointments

By RAYMOND WILCOVE
International News Service Staff Correspondent

HARRISBURG, Jan. 9.—Political animosity in the Pennsylvania senate today threatened to hold up confirmation of Gov.-Elect James' cabinet appointments.

Democratic senators, threatened with a loss of patronage if they refused to permit a reorganization of the senate, made it clear they hold an ace card which they are prepared to play if necessary.

The Republican strength in the senate being 25, and a vote of 34, or two-thirds, being necessary for confirmation, Gov.-Elect James' cabinet appointments can be confirmed only through a coalition of Republican and Democratic senators.

May Scrap Custom

Opposition senators, as a rule, confirm an incoming governor's cabinet appointments as a matter of courtesy, but because of the unprecedented situation existing in the senate the custom may be scrapped.

Democrats made it clear that they might withhold their support to such confirmation only in the event the Republicans attempted to unseat the senate officials the Democrats elected on the opening day of the session.

The Republicans, with the aid of Sen. William J. Eroe, Jr., Lawrence-Beaver Democrat, succeeded in snaring the most important post, that of president pro tem, but lost the others when Eroe withdrew his support.

Foresee Deadlock

Should Republicans attempt to force the issue of senate patronage when the upper chamber reconvenes on January 17, the two parties might become deadlocked and Gov.-Elect James' appointments could be held up indefinitely, unless the Republicans can induce nine Democrats to vote with them.

Cabinet officials cannot take over their departments until they have been confirmed. Democrats in the (Continued On Page Two)

Reckless Driving Charge Is Filed By Sharon Police

(International News Service)

SHARON, Pa., Jan. 9.—A charge of reckless driving was on file today against David Schumaker, 33, of Cleveland, whose 10-wheel tandem truck careened into the downtown business district late Saturday, damaging seven automobiles and injuring six women, police reported.

Schumaker said he lost control of the vehicle on a steep hill. The truck was loaded with six and a half tons of coal.

British Prime Minister Stops In Paris Enroute To Conference With Mussolini

(International News Service)

PARIS, Jan. 9.—A vigorous determination that neither French soil nor French interests shall be sacrificed to Italy in the name of European appeasement was apparent in French governmental circles today as Premier Edouard Daladier set the stage today for his conference with British Prime Minister Neville Chamberlain who will stop off in Paris tomorrow on his way to Rome.

Reinforced in his conviction of France's ability to defend herself by his inspection of north African fortifications during his triumphal "empire solidarity" tour of Tunis and Corsica, the French premier was understood to be in no conciliatory mood toward Italy's Mediterranean aspirations.

Chamberlain To Stop Off

The British prime minister and his foreign secretary, Viscount Halifax, will make a two-hour break in their journey to Rome where they are scheduled to arrive Wednesday for three days of important negotiations with Italian Premier Benito Mussolini and Italian Foreign Minister Galeazzo Ciano.

These two hours in the French capital will, in the opinion of observers, serve notice to Rome of the (Continued On Page Two)

Works On Completion Of Special Rearmament Message To Congress

LIKELY TO START CONGRESS BATTLE

Huge Increase In Air Forces Will Probably Be One Of President's Proposals

By WILLIAM S. NEAL
International News Service Staff Correspondent

WASHINGTON, Jan. 9.—President Roosevelt's anxiously-awaited special message on U. S. rearmament, will go to congress tomorrow or Wednesday, it was indicated today at the White House.

Mr. Roosevelt worked on the message over the week end and today held final conferences on the defense program with the advisory board of the National Resources committee which has been studying mobilization of American industry in event of war.

Finishing Message

Engagements of the chief executive were held to a minimum today to enable him to put the finishing touches on the message which will dovetail with his opening message in which he warned that the nation must be prepared to defend itself.

Meanwhile, congressional leaders were ready to start the legislative processes for a thorough study of the defense program as soon as it reaches Capitol Hill.

The new program admittedly carried the possibility of plunging congress into a bitter struggle over the extent to which American military (Continued On Page Two)

Making Investigation Of State 'Relief Load'

(International News Service)

HARRISBURG, Jan. 9.—Alarmed at the steadily increasing state relief burden, the Department of Public Assistance moved today for an investigation of Pennsylvania's entire relief population as a preliminary to limiting relief employment to "those who need it."

As State WPA Administrator J. Banks Hudson disclosed that a reclassification was being made at the request of the department, Public Assistance Secretary Arthur W. Howe, Jr., revealed that the relief rolls in the state zoomed to a new (Continued On Page Two)

PAYS TRIBUTE TO LANDON'S EFFORTS

(International News Service)

NEW YORK, Jan. 9.—Secretary of State Cordell Hull returned from Lima, Peru, today, hailing the agreements reached at the Eighth Pan-American Conference as certain to enhance new world solidarity.

"The American republics have made it clear to the world," Hull said, "that they stand united to maintain and defend the peace of this hemisphere, their territorial integrity, their principles of international relations, their own institutions, and national policies."

Peace Is Aim

Hull, who headed the U. S. delegation to the conference, noted that there was a general realization at Lima that "international lawlessness and international anarchy exist in many areas on the earth." There was a further realization that economic chaos existing in a considerable part of the world "would even- (Continued On Page Two)

Grand Jury Resumes Probe On Tuesday

(International News Service)

HARRISBURG, Jan. 9.—Pennsylvania's consistently changing political scenery shifted once again to the Dauphin county grand jury investigating high Democratic state officials today in the wake of the indictment of Secretary of the Commonwealth David L. Lawrence.

Indications were that additional indictments may be made this week, possibly Tuesday.

The jury's presentation to Judge Paul N. Schaeffer, Berks county jurist, specially presiding, requested permission to continue its probe of the Erie "gravel scandal," particularly as to the possible connection and participation of Gov. George H. Earle, Arthur Colegrove, H. H. Temple and E. A. Griffith, discharged highway department employees.

Judge Schaeffer, acceded to the jury's request for continued investigation of the Erie case.

Meanwhile, the jurist said he would confer early this week with District Attorney Carl B. Shelley to set a trial date for Lawrence, Lawrence, also Democratic state chair- (Continued On Page Two)

SCRANTON, Pa., Jan. 9.—A suspect who gave his name as Paul E. Rhodine, 27, Salt Lake City, was held for questioning today in connection with the brutal murder of Margaret Martin, 19-year-old Kingston, Pa., business school graduate, whose nude body was found trussed in a burlap bag in Keelersburg creek last December 21.

Detective Captain George Donaldson of Scranton explained Rhodine was taken into custody because he had written letters to hundreds of young women in all parts of the country.

Rhodine, whose replies were not altogether satisfactory to police, denied he was in this region when Miss Martin was kidnapped Dec. 17 as she apparently went to search for employment. Rhodine insisted he did not leave Utah until Dec. 21.

Detectives announced Rhodine will be held pending more thorough investigation into his activities.

PA NEW OBSERVES

With no snow or ice on the highways, and with spring like weather conditions prevailing, thousands of motorists were out enjoying a ride over the highways of Western Pennsylvania on Sunday afternoon.

W. E. Dufford, who resides at the corner of North street and O'Brien avenue, reported to Pa News this morning that there were four cardinals in the front yard at his home. Pa News hopes that this means spring is just around the corner.

An Italian made midge automobile has been purchased by Michael Grata of East Long avenue and attracts considerable attention as it goes about the streets in the city. The machine is similar to the Bantam in size. The car carries the same Fiat on it.

Large increase in the number of paved streets in the city during the past few years has decreased the work of the street department with regard to keeping up unpaved streets. Formerly about this time of the year, the street department was swamped with calls requesting streets be given a new coating of (Continued On Page Two)

Await Reply From Budapest On Proposal After New Clash

CZECH OFFICER REPORTED SHOT

(International News Service)

PRAGUE, Jan. 9.—The Czechoslovak government today pressed for a reply from Budapest on a proposal for the establishment of a neutral zone along the embattled Czech-Hungarian frontier as public sentiment against Hungary was inflamed by a new border clash in which a Czech army officer was seriously wounded.

Negotiations for a lasting truce were put in jeopardy by a number of frontier skirmishes during the last twenty four hours, of which the most serious was a battle in the neighborhood of Nagyevoc near Ungvar.

It was in this fight that the Czech officer was thrice shot as he and a brother officer sought to investigate the source of the trouble, according to a Czech version of the incident.

Fighting broke out, it was said in Prague today, when Hungarian regular soldiers and irregulars invaded the Czech town of Dobve on Saturday night. It continued for several hours until Czech liaison officers ordered Czech soldiers to hold their fire.

HARRISBURG, Jan. 9.—The New Castle Electric Street Railway company, of New Castle, today was authorized by the Public Utility commission to abandon a section of track known as the Croton Avenue line and to substitute bus service by the Penn-Ohio Coach Lines company, an affiliate. Identical fares and transfer privileges will be allowed.

Abandonment of service, however, is subject to six conditions set forth in the commission's order. Briefly, they are: All poles and overhead structures owned by the street car company must be removed at their own expense; payment of \$1000 to the city in place of "all rails, railway equipment and ties," which shall not have been removed by the company; the company restore (Continued On Page Two)

U. S. Air Supremacy Seriously Threatened; Report To Congress

By LEON W. SHLOSS
International News Service Staff Correspondent

WASHINGTON, Jan. 9.—The United States was warned today by the highest court of expert aviation opinion in the land, that American air supremacy—and with it, possibly, the peace of the world—is being seriously threatened by the swiftly-arming, aeronautical-minded nations of Europe.

The national advisory committee for aeronautics, which governs federal aviation research, reported to congress that the U. S. domination of foreign air commerce, and the healthy respect entertained by world powers for the efficiency of American military airplanes, definitely will be lost, unless the following steps are taken quickly:

- 1—Expansion of the army and navy air forces.
- 2—Expansion of facilities for aircraft production.
- 3—Increase in trained active and reserve air corps personnel.
- 4—Expansion of research and laboratory facilities and activities. Beginnings already have been made along the lines recommended by the committee, which includes in its membership Orville Wright, Col. Charles A. Lindbergh, Maj. Gen. H. Arnold, chief of the army air corps, and Chairman Edward J. Noble of the Civil Aeronautics Authority.

President Roosevelt this week is expected to ask congress to provide for a 6,000-plane army air corps and a 3,000-plane naval air force. Both figures represent huge increases. The executive already has announced a plan to train 20,000 additional airmen in the colleges, and conversations have been held between administration officials and aircraft manufacturing executives, looking to plant development and boosted out-

Of course I like this sort of weather, its snappy and peppy and keen I know, but this I am thinking of as I survey it, when are we due for a fall of snow? There's so much snow that we have to have sent us, so much ice and a lot of frost, weeks have gone by with the weather like springtime, days for us expected snow seem to be lost. Probably when we should see birds returning, we will get snow say in April or May, it doesn't make sense but I thought I'd just mention it, weather's still fine over fifty today.

Jack Benny Going Before Grand Jury

Will Testify In Smuggling Case

Benny Declares He "Doesn't Know What It's All About" As He Takes Plane

FLYING EAST TO APPEAR TUESDAY

(International News Service) HOLLYWOOD, Jan. 9.—Still declaring he "doesn't know what it's all about," Jack Benny, radio and movie comedian, today was flying to New York to appear before the federal grand jury in the Chaperau smuggling case.

After completing the second of his Sunday broadcasts, in which he seemed to be in fine fettle, the comedian dashed to an airport and left for the east at 10:30 p. m. (PST) by American Airlines. He is traveling under the name of "Clarence Barrett" and is accompanied by his manager, Myrt Blume, known for the duration of the flight as "William Stevenson."

Neither would discuss the case, except for Benny's denial of knowing anything about it, while the motors of the plane received a final "gunning" before the takeoff.

It was understood, however, that the comedian was to appear before the federal grand jurors tomorrow to go into details of his friendship and association with Albert N. Chaperau, who claims immunity in bringing articles to this country on the grounds he was an attaché of the Nicaraguan consul general. The government is contesting validity of his Nicaraguan commission.

Benny's singing wife, Mary Livingston, was reported to have received articles valued at \$1,200 through Chaperau.

Another radio comedian, George Burns, has pleaded guilty in New York in connection with the Chaperau case.

Howe reported also that expenditures for the week rounding out 1938 jumped to approximately \$1,600,000, a record for the year.

A general weeding out of the WPA rolls, Hudson predicted, would make room for at least a small percentage of those now on the dole.

Declaring that it has been three years since there was a "complete investigation" of the WPA case load, Hudson said it was "reasonable to assume that a substantial per cent of those persons who were in need of WPA employment now enjoy income from other sources, and are no longer entirely dependent upon WPA for sustenance."

forces shall be increased in the face of world unrest and threats of dictator nations.

Delay Comment
First authoritative disclosure of the extent of the new program, contained in the president's budget message, caused many members of congress to delay comment on armaments until the special message is received.

While the regular annual budget for the army and navy will soar to new heights, the president's budget message indicated that the expansion of the army and navy may proceed slower than was anticipated by many.

Huge Air Increase
A huge increase in the authorized airplane strength of the army, perhaps raising it from 2,330 planes to 10,000 to 12,000, may be a part of the program. Actual expansion would follow only as congress appropriated money.

Increased munitions reserve, further mechanization and a greater personnel to meet needs of an expanding air force may also be recommended for the army.

Congressional naval experts assumed that Mr. Roosevelt would back the Hepburn board report, which recommended fortification of Alaska and many other Pacific islands.

senate might prevent them from taking over their duties until the legislature adjourned, probably in June. They would then be reappointed by the governor and serve until the end of the next senate session.

As a rule cabinet and other important appointments are confirmed by the senate over refusal of Republican senators to accede during the special session to the confirmation of Arthur Colegrove as a public utility commissioner, Leo Crossen as a member of the Liquor Control board and Edward N. Jones as a member of the State Turpines commission.

Even then there were threats to hold up the confirmations of Governor James' appointees but Republican leaders paid little attention to them—and for that matter pay little attention to them now, confident they can muster the necessary votes.

There is also considerable resentment among hold-over Democrats in the senate over refusal of Republican senators to accede during the special session to the confirmation of Arthur Colegrove as a public utility commissioner, Leo Crossen as a member of the Liquor Control board and Edward N. But it was apparent in unofficial circles that the French message will be an adamant one to Italian demands on the colonial and Spanish problems. The French premier is expected to turn a deaf ear to any plea Chamberlain may make for outside mediation of the controversy between Paris and Rome.

Daladier will refuse categorically any offer of British intervention on the ground that the problem is exclusively Franco-Italian and one with which Paris feels itself quite able to cope. So far as France is concerned there will be no "second Munich" at her expense.

If the temperature for January is going to average up, we are due for some extremely cold weather sometime this month. It has been unseasonably warm for almost a week now. A year ago today, the mercury was down to five degrees above zero, which is quite a difference.

It may have been Attorney-General Frank Murphy in New Castle on Saturday, westbound, and again it may not have been. Michigan license plates number 1 were on a big car. Mr. Murphy was governor of Michigan up to January 1 and it is possible that it was he.

Among those out motoring Sunday afternoon, were many who went along the newly completed highway through Hillsville, joining with the Ohio highway. The cuts and banks in many locations on either side of the highway have been prepared for the planting of shrubbery, to reduce soil erosion, and the banks outside the berms have been nicely rounded, preparatory to being sown with grass seed.

Many motorists about the city are still taking advantage of the 15-day extension on license tags, and are still using 1938 plates. Incidentally only five more days remain in the extension period.

Deaths of the Day

Allhouse Services.
Funeral services for the late Perry Allhouse were conducted from the Bethel U. P. church on Sunday afternoon at 2:30 o'clock, with Rev. Ray Woodburn, pastor of the Mt. Jackson U. P. church in charge.

Two beautiful hymns, "Jesus Thinks of Me," and "That Beautiful Land," were sung by James McKim, Elmer Seaton, Floyd Douglas and Chester Kyle, accompanied at the piano by Eleanor Gardiner.

The pallbearers were Charles and Robert Williams, Theodore Smith, Norman, Clarence and William Kuhn. Interment was in Bethel U. P. cemetery.

R. T. Newell, aged 82 years, of 1040 West Washington street passed away very suddenly Saturday afternoon, January 7, in his home. Mr. Newell, known to his many friends as "Tom," was born March 10, 1857, the son of the late William and Jane Newell, pioneer settlers of New Castle.

While a young man he began his career as a railroad, and at one time was general yardmaster of the B. & O. Railroad. In later years he was employed as health officer for the city, and his last position was at Cascade Park, where he was chief of police. In his many lines of work he endeared himself to a host of friends who will be saddened by his sudden passing.

Suffering from a complication of diseases that had impaired his health for the past three years, Mr. Newell was unable to recover from injuries and shock sustained in a severe fall at his home on Thursday night.

Surviving are his wife, Lucy Newell, one son, Charles, a daughter, Mrs. Lola Campbell, and one grandson, Merle Campbell.

The family will receive friends at the Ritchie funeral home on South Mill street, this evening between 7 and 9. Funeral services will be held Tuesday afternoon at 2:30 o'clock and interment will be made at Greenwood cemetery.

Mrs. Teresa Marlene Panaro.
Mrs. Teresa Marlene Panaro, aged 78 years, died at the home of her daughter, Mrs. Dan Archette, Main street, Wampum, Sunday evening shortly before 7 o'clock, ending several weeks of illness.

Mrs. Panaro resided in Buffalo, N. Y., until coming here last summer. She leaves three daughters, Mrs. John Martin and Mrs. Archette of Wampum and Mrs. Ralph DiMarco of Buffalo; two sons, Anthony J. Martone and Michael Panaro of Buffalo; seven grandchildren; a nephew, Jerry Paedella of Clinton; and the following nieces, Mrs. Teresa Carroll of Keppel, Mrs. Frank Alphonso, Mrs. Emil Alphonso, and Mrs. Angelo Galano, all of Ellwood City.

ALASKA TO ARGENTINA BY MOTOR

THE project for a main highway from Seattle to Fairbanks, Alaska, should be advanced by the forthcoming visit to Washington by Prime Minister Pittullo of British Columbia. This proposal first took practical shape some years ago when congress appropriated substantial sums for plans and surveys.

A considerable part of this enterprise is now included in the Pan-American Highway, which has been completed between Vancouver and Mexico City, a distance of nearly 4,000 miles. Further south, work is progressing on the link to Panama, whence the road would be continued to Santiago on the west coast of South America and then southeast to Buenos Aires.

Because of existing roads, new construction on the proposed northern highway would involve only about 1,200 miles at a cost of \$10,000,000 to \$14,000,000. Financing offers the only difficulty. It has been proposed that the United States bear the cost, since it would derive military and other advantages, but Canadians fear this would imply alien control of part of their territory.

In the case of the proposed St. Lawrence waterway, Canada was quite content to have our government assume the chief financial burden. Such a one-sided bargain has been properly opposed. Since it is desirable for our country to have this highway connection with distant Alaska, a reasonable investment would be justified.

It is rather surprising to learn that the snows would not be an insuperable obstacle. "Rolling down to Rio" has been celebrated in song. But motoring from Alaska to Argentina along a road of concrete, without a detour, appeals even more strongly to the imagination.

IF THE BRIDES ORGANIZE

The old world hands us a good idea and a giggle semi-annually. The first of the season comes from London, where a pretty little miss about to become a bride, has fostered and spread a new plan for trouble in the home.

It's a union of brides and brings the whole subject of labor organization, strikes and pickets right into the home and sets it down on the hearth. For Miss Sylvia Lennard proposes the following set of rules for the happy bridegroom and capitalistic husband:

Bridegrooms must pay the bride's fare when she sets out to buy her trousseau.

Pay all wedding expenses.

Agree with the bride's choice of wedding guests.

Provide her with a new and completely furnished home.

If his means allow it, he must get her a maid.

All of which sounds a little terrific and certainly will not have a tendency to make a poor male settle down in a home of his own with a helper out of the Bride's Local.

NEW SLANT ON REALTY TAXES

Chicago's assessor has worked out a new scheme of realty taxation based on the income principle. Property owners, under this arrangement, would pay taxes in accordance with the productivity of their enterprise. The home owner obviously would benefit appreciably, since no income is derived from the owner-occupied home.

But is it exactly fair to place heavy taxes upon the owner of, say, an apartment house which has been improved to an extent that attracts tenants? In this respect, at least, the Chicago proposal seems to place a premium on neglect of property.

Another suggestion from the Windy City is that vacant lots be more heavily taxed so as to encourage new construction. This is reminiscent of the single tax theory of Henry George.

Though the various Chicago schemes may be futile and inadequate in some respects, they emphasize an increasingly important phase of the general fiscal problem. Something obviously must be done to ease the condition of the home owner, who, for all too long a time, has been paying a disproportionate part of the costs of government.

AS JAPAN CONTINUES CHINESE WAR

Japan's undeclared war in China enters upon the second half of its second year. It has cost a fabulous amount, dislocated industry, impoverished still further an incredibly poor common people. The time has not yet come when the slogan of "East Asia for the Japanese" is popular with those who are paying for the war by self-denial at the best of the army clique. It is not likely to come until or unless the Japanese Army is able to live off the conquered. And that fact, probably more than any other, accounts for the fall of the Konohe Cabinet.

One-party rule that brooks no interference is indicated by the selection of Baron Hiranuma as the new premier.

Disinterested observers, to the extent that anybody can be truly disinterested, report that the war in China is unpopular at home both with the workers and with those business interests that are not directly profiting from it. Diversion of plant alone is responsible for a great deal of the shrinkage in the volume of Japanese exports, which has pretty much paralleled that in Japanese credits abroad. The army has been clamoring for government control of capital and investments, and the cabinet change may be the first great step in that direction. Certainly that has been the experience of the dictatorships in the nations with which Japan is allied. There unrestricted ability to use the taxing power made business quickly bow the knee once labor was "safely" in hand.

Statesmen could prevent war. Just plan some other exciting thing to make headlines and conversation.

The modern home has every comfort except a sound proof telephone booth to protect those who aren't talking.

We believe the first trailer must have been built as a compromise with one of the girls who wanted to leave home.

Democracy is the theory that a two-by-four nobody is miraculously transformed into a great man by getting a majority of votes.

The little woman has the Christmas things neatly classified: The ones she wanted, the ones she can use, and those that will make nice bridge prizes.

The Parent Problem

By Garry C. Myers, Ph. D.

LIBRARIES FOR PARENTS
"DEAR Dr. Myers—The Child Study Club of Fort Wayne, Indiana, is building a library for mothers and fathers. As a member of the committee for choosing and purchasing such books, I am taking the liberty of writing to you for your advice.

"I have heard and enjoyed your lectures several times and read much of your writings, and knowing the faith the mothers have in your judgment, I assure you the advice you would care to give us will be greatly appreciated by us all."

"J.B."

I sent her a list of books covering the various ranges of child development and guidance at different age levels, and on family relationships and mental health. Others may have similar free assistance by writing me in care of this paper, enclosing a self-addressed envelope with a three-cent stamp on it.

Available To Others
While many parents will want to build up a private bookshelf to aid them in self-improvement as parents, they will also want to help make such books available to others who cannot afford to buy them. Some public libraries carry all the books I have listed for parents. Many, however, do not. Some of them can be induced to buy such books for the library, if enough parents and parent organizations want these books and will guarantee that they will be used.

In recent years many civic clubs have been donating funds to their local public library to buy books for parents. Some P.T.A.'s have done so.

Bent On Fund-Raising
Some while ago, in this column, I deplored the fact that so many P.T.A.'s have neglected the most important part of their program—parent education—and that all too many of them are bent on raising money to buy school equipment, which the boards of education should purchase with public funds. If they can't be happy unless they are operating money-raising campaigns, let them use the money to buy books for the public library, for their own education.

Commendably, many churches are building libraries for parents right in the local church. I have always believed that parents who learn to win the affection and co-operation of their children are, in consequence, the better able to win these children to their religion, all else being equal.

The World AND THE Mud Puddles

PROPAGANDA VS. WAGES
Propaganda talks: We're all wrong over here in America. We're clinging to an out-moded, cumbersome form of government—Democracy. We're trying to hold together an out-moded system of free enterprise for profit in business—Capitalism. The American masses should throw all this aboard and take charge as the "masses" did in Russia. Or we should set up a dictator who would gather all the loose ends of democratic difference of opinion and weld labor, industry and the press into an efficient, obedient, goose-stepping machine.

Money talks in Russia more than two decades after the "masses" ushered in Utopia, the average hourly wage rate is eighteen cents, the average annual income of the worker is \$552. In Italy—hourly wage, twelve cents; annual income, \$718. In the many—hourly wage, twenty four cents; annual income, \$718.40. In the United States of America, the average worker is paid sixty-one cents an hour and earns in the year \$1275.

The debate is closed: No method of government is perfect; no economic system is perfect. Neither can be, so long as the owner of man is imperfect. But a system that has proved itself over one hundred sixty years of national life, and has given the average American a standard of living that has never been equaled in the world anywhere at any time, is assurance that the guarantees of the Bill of Rights will remain the foundation of American life, after Communism, Fascism and Nazism become discarded and half-forgotten experiments, embalmed in books to bemuse the curious historian.

Example of democracy's love for subject races: The British proposed outlawing the bombing of civilians, "except native peoples."

Man at his childish and pathetic worst: "A nation at war keeping up its courage by repeating: 'One of our soldiers can lick three of theirs.'"

It's hard to form a fair opinion of a man. The act that now seems vile would seem innocent if it helped us instead of the other fellow.

THE END
For twenty years his game he'd played
And thought his fortune fast;
Had tricked and swindled and betrayed
Until he stood aghast.
As o'er his path a comrade strayed
Out of the buried past.

He merely stopped a friend to greet
With fellowship's "hello"
But called him by the name the cheat
Had altered long ago.
And some one passing on the street
The reason asked to know.

The truth was out! The game was done.
Likewise done scheme and plot!
Then all the many millions won
Could help to save him not.
They found him at the setting sun
Dead by a pistol shot.

HINTS and DINTS

Sun sets tonight 4:51. Sun rises tomorrow 7:24.

A lady member of the Pennsylvania legislature is going to get married when the legislature adjourns. She evidently thinks she will have enough to attract her attention for some time to come.

The supreme court of Florida has ruled that McCall who kidnapped and killed the little Case boy and collected \$10,000 from the father after the boy was dead, will have to die. It's a wonder crooks like that don't die a natural death before they get what's coming to them. The crime occurred last May.

How do you think the thousands of Democrats feel in Harrisburg who are still on the payroll? They don't know what minute will be their next.

Mr. Dies, head of the committee investigating un-American activities, don't mince any pies. He even thinks Miss Perkins ought to be impeached. That isn't her name, anyhow. It's just her maiden name.

A hen in Vermont lays eggs that weigh a half a pound apiece. If laid away now they should be ripe for a Democratic orator in '40.

Once you open your previously closed emotion centers to raising of flowers, the result will astonish you.

Heard at a political banquet: "I now wish to introduce Mr. Martin Hawkins of this soil and fertilizer bureau. He is full of his subject."

An Englishman and an Irishman were riding together, passed a gallop. "Where would you be," asked the Englishman, "if the galleys had its due?" Sure an I'd be riding alone, said the Irishman.

How many kinds of milk are there? asked the city boy of his father. "O, three or four," replied the father. "There is butter milk, sweet milk and condensed milk. Why do you ask?" "I was drawing the picture of a cow and I wanted to know how many faucets to put on her."

Example of democracy's love for subject races: The British proposed outlawing the bombing of civilians, "except native peoples."

A new year always brings new hope. This is especially true after the old one has been a bum affair.

It's wonderful what a few drinks will do to a man—even if he doesn't drink them himself.

There are screwball comedians. It may be that some singers are classed the same way.

Americanism will be the prevailing theme in Hollywood moving pictures during the coming year. According to some reports it will be something new for some of the actors to have anything to do with Americanism.

News item: Jones died leaving \$1,000,000. Smith died leaving \$1,000,000 friends.

How do you keep your hat looking so fresh? O, I've had it cleaned twice and had it exchanged once at a restaurant.

All herbivorous animals are peaceful by nature; all carnivorous animals are fighters.

A two-piece dress distributes the weight and seems to sanderize the lines over the protruding position of the anatomy. And be sure to adjust the hemline and beltline of your two-piece dress so that they do not ride up to spoil this camouflage.

Reader's Questions Answered
Dear Miss Markel—Is it proper to wear a graduation ring of any kind after you are married and wear both a wedding and engagement ring? May the bridegroom's mother give the bride a shower?—N. B.

Answer—You might wear the graduation ring on your right hand. Strictly speaking, members of the groom's as well as the bride's family should not give her a shower. Such a gesture should come from those outside the families.

What's What At A Glance

Congress Has Sick Patients
Three Ills Demand Attention
Many Other Problems Worrisome

By CHARLES P. STEWART

Central Press Columnist

WASHINGTON, D. C., Jan. 9.—Congress, getting busy with its 1939 activities, has, notably, three very sick patients to doctor.

1. Sick agriculture.

2. Sick railroad.

3. A sick federal treasury.

Our manufacturing industries and our commerce have been sick, but they are well on their way toward recovery.

Our foreign relationships constitute a problem but a problem is different from sickness. It is a problem involving the question of national defense, but our defensive set-up is not sick, either. It is run down a bit, but it can be built up again quite readily and speedily with about a billion dollars' worth of army and naval ordnance and aerial vitamins.

Agriculture and the railroads are sicker than pups, however, and the treasury is sickening—I mean getting sicker, with every prospect that it will be out-and-out sickening presently.

Doctors Disagree

The worst of it is that doctors disagree almost hopelessly.

Agriculture's case is chronic. In my personal opinion it dates back to the beginning of our intensive protective tariff era, the start on a diet which was our manufacturers' meat but our farmers' poison.

Dr. Henry A. Wallace is our best recognized specialist on rural ills. He is a good one, too—in theory. Next to Dr. Cordell Hull my own notion is that Henry is the ablest medical cabinet.

But Dr. Hull does not specialize on agriculture. Indirectly his international trade prescriptions may result beneficially to the farmers, but those prescriptions are TOO indirect. Agriculture is afraid of dying in the meantime. Dr. Wallace tries to administer stimulants—something speedy. But they do not "take"—that is the trouble.

Oh, if Dr. Arthur Capper did not belong to the G. O. P. school of medicine! HE KNOWS something about the farmers' indisposition. But what is the use?—he is a minority doctor.

Youthful Excesses

The railroads are present-day victims of their own youthful excesses.

It is nearly impossible for any doctor to go back into a patient's remote past and make a man of him in later life, as if he had not been a grafter and tough in his 20's.

Dr. Burton K. Wheeler and Dr. Clarence F. Lea, respectively chairman of the senate and house interstate commerce clinics, are doing their damndest to cure the railroads. If they get away with it they will be wonders. A mis-spent early career, in the 1800's, is hard to correct in this century.

The Federal Treasury

It was proclaimed well in advance that the federal treasury could stand a 40-billion dollar debt without over-straining matters. After that, it was conceded, we should have overdone matters.

Well, we are considerably above the 40-billion mark.

Yet Dr. Marriner S. Eccles of the Federal Reserve Board's emergency hospital asserts that we have not had anything like an overdose to date. Moreover, if we do cut down on the dose, our manufacturing industries and commerce immediately show signs of suffering from the deficiency.

Congress's Problem

Congress's problem?

It is damned if it does and damned if it doesn't.

This session of congress will be very controversial.

She sat on the bridge at midnight.

And tickled his fate with her toes.

For she was a lonely mosquito.

And the bridge was the bridge of his nose.

A little street urchin at the news-boys Christmas dinner refused the proffer of a third piece of pumpkin pie: "Nothin' doin' lady. I could chew it but I couldn't swallow it."

Am I too fast for you?" inquired the employer, giving dictations to the new stenographer. "No, you're too old!" she said.

Correct this sentence: "That country is our best customer," said the statesman, "but we'll quit doing business with it until it reforms."

ANNIVERSARY EVENT FOR SEMPER FIDELIS

Celebrating their ninth anniversary, members of the Semper Fidelis club entertained their husbands at a dinner in a local tea room on Sunday evening.

The full course dinner was served at 7 o'clock by Mr. and Mrs. Guy Angelucci.

Following the hours were spent informally, contests being a pastime. The prize was captured by Elrick H. Scarazzo.

The next meeting of the club will be with Mrs. Carl R. Tranquillo as hostess on Thursday, January 19.

City Officers Stage Two Raids

Cards And Small Amounts Of Money Found On Tables, Claim

Steve De Massa was arrested by Lieutenant Kennedy and Policemen H. E. Richards and Smith at 8:50 p. m. Saturday on a charge of being the proprietor of a "disorderly house" in the rear of 27 North Liberty street. The officers found 10 cents and a package of cards on a table. It was claimed that some of the six visitors were playing cards for "pop". Mayor Charles E. McGuthrie fined De Massa \$25.00 and permitted the inmates to go free.

Detectives Lynch and John Young and Scout Car Officer Flinnar arrested Tony Natale and eight visitors at 125 West Washington street Saturday afternoon. Natale was charged with being the proprietor of a "disorderly house".

MORE ALLERGIES—HAY FEVER AND ASTHMA

Hay fever and asthma are manifestations of allergy which usually appear much later in life than eczema. I have told you of seeing cases of eczema a few weeks after the birth of a child but it is unusual to find a child suffering from hay-fever or asthma before the child is at least a year old. Usually it doesn't appear before the child is three or four years of age.

Hay fever is the name applied to a condition which is characterized by a running nose and running and smarting eyes. We know little of hay fever in this part of Ontario because our air is exceptionally free from smoke and pollen dust. In fact, about the only time we encounter hay fever is when some of our friends come up from the United States or from southern Ontario to get some relief from it.

It isn't hard to tell the difference between hay fever and the common cold, for in the former the victim may be suffering acutely from the complaint and yet, an hour later, may be entirely free from it. It has been given the name hay-fever because at one time it was supposed to have been caused by hay pollen entirely. Obviously this isn't true because there are those unfortunate who have the same complaint all winter, when there aren't any pollens in the air at all.

Asthma in general, is more serious than hay-fever. It is characterized by very different breathing and wheezing; this is caused by a spasm of the tubes leading to the lungs. As-

thma may be due to pollen in the air during summer, but it also may be caused by other substances in the air the year around.

Summer is the most common season for both hay-fever and asthma, and the pollens which cause the trouble are divided into three groups. Early pollens, usually the trees, maple, oak, and others—which pollinate in late spring or early summer; Summer pollens, usually the grasses which pollinate in June and July; the fall group, plants which pollinate in August and September. Ragweed is the worst offender in Ontario. It pollinates in mid-August and remains in the air throughout September.

So, if a person develops hay fever or asthma during the summer months of the year and is free from it all the rest of the year, he is likely allergic to some pollen which is in the air. Treatment generally consists in performing skin tests such as I described to you last week, and ascertaining particular pollen which is causing the trouble. This is followed by the patient receiving injections of increasing amount of the protein by means of a needle.

If these two complaints bother a person the year around, then we have a much larger group of proteins to suspect. In all probability it is some protein which is inhaled so our chief suspect will be the materials which float in the air about us. Feathers, furs and dust are chief amongst these. After the offending proteins have been discovered, then treatment is the same as described in the previous paragraph.

Drugs are sometimes used to give relief to asthma sufferers. Those most frequently used are adrenalin and ephedrine. These often give temporary relief but for a permanent cure the individual must be desensitized to the protein which is causing his reaction.

Many Mirrored Dressing Room For Martha Raye

By MILTON HARKER
(Copyright 1939, INS)

HOLLYWOOD, Jan. 9.—The many-mirrored dressing room which showed off Marlene Dietrich and her gorgeous legs during her long reign at Paramount is now reflecting another pair of shapely under-pinnings and a mouth which has everything except beveled edges. It's been given to Martha Raye.

The room was sumptuous before, fit for a queen. It's even more sumptuous now that the \$2,000 a week comedienne got the call over Claudette Colbert, Dorothy Lamour and the studio's other glamour girls.

Martha, who's just completing "Never Say Die" and can sit down and look at herself from any and all angles as much as she pleases, is pretty happy over the whole thing. She's really fixed it up.

You've got to see this dressing room to believe it. When you're walking forward, you see yourself walking backwards and sideways as well.

You can't miss yourself because one whole side and another half is

solid mirror. Then there are other mirrors. The ceiling and the wall facing the full mirrors are in dark brown. The remainder of the wall is white. There is a burnt orange rug on the floor. If you want to sit down, you have a choice between a pure white lounge and a pure white chair and a dark brown silk chair.

Except for the mirrors there is only one break in the wall. It's a picture. It's of David Rose. He's Martha's husband.

It's quite a room. When you look around town, it comes to you with sudden force that the movies' idea of what the public wants in the way of glamour girls changes with the years.

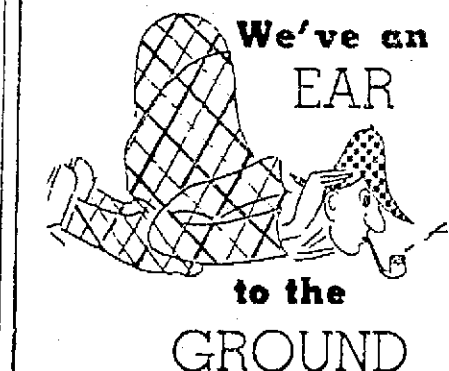

Once upon a time there was a preponderance of brunettes. They were the ones who knocked the men off their seats. It was rare, if ever, you saw a blonde who wasn't pictured as all sugar and sweetness. Remember, as a good example, Alice Terry.

The famous brunettes were Pola Negri, Theda Bara, Barbara La Marr, Louise Glaum, Gloria Swanson, Norma Talmadge, Alice Joyce, Florence Vidor and Marguerite Clark.

With one notable exception, Hedy La Marr, think of the vast number of blondes who have clicked in recent years. Two of the newest foreign importations, Isa Miranda and Milja Korjus, are fair. Isa has just completed her first American picture, "Hotel Imperial," and Korjus, the young and pretty edition of Mae West, recently made her debut in "The Great Waltz."

And there are plenty of other top-flighters who appear fair on the screen. Garbo, Carole Lombard, Bette Davis, Madeleine Carroll, Miriam Hopkins, Alice Faye, Joan and Connie Bennett, Danielle Darrieux, Loretta Young and Virginia Bruce. Maybe gentlemen do prefer blondes after all.

Of course, we have heard that the darkest brunette can become the most platinum of all if she visits the medicine cabinet often enough.

Radio Challenge Is Being Met By U. S. Broadcasters

Will Meet Challenge Of European Nations In Broadcasting To South America

(International News Service)
NEW YORK, Jan. 9.—The United States is meeting the radio challenge of fascist Europe which has trained its most persuasive short wave beams on South America to propagandize the fascist concept of neighborliness.

Today, National Broadcasting company announced that construction work is going forward on two new antennae for transmission to Latin America. Three powerful transmitters already are in operation and new antennae, primarily constructed to carry programs to Buenos Aires or Rio De Janeiro, are so erected that signals can be pointed toward any specific point in South America.

The transmitters are of 25 kilowatt power, but the radio beam is

Benefits Nation of Sufferers!

COLUMBUS, OHIO: For over 20 years Dr. F. M. Edwards (widely known physician) successfully treated scores of patients for constipation and the headaches, lack of energy and mental dullness which often result.

This wise Doctor knew liver bile must flow freely every day into your intestines or fatty foods can't be properly digested and you may become constipated. So he kept this in mind when he perfected his famous Dr. Edwards' Olive Tablets.

Olive Tablets, being purely vegetable, are harmless, yet they assure gentle, thorough bowel movements and ALSO help stimulate bile flow. Test their goodness TONIGHT! 15¢, 30¢, 60¢.

COUGHS DUE TO COLDS

To quickly relieve distress—rub soothing, warming Musterole on your chest, throat and back.

Musterole is NOT "just a salve." It's a "counter-irritant" containing good old-fashioned remedies for distress of colds—oil of mustard, menthol, camphor and other helpful ingredients.

That's why it gets such fine results—better than the old-fashioned mustard plaster. Musterole penetrates the surface skin, stimulates, warms and soothes and quickly helps to relieve local congestion and pain. Used by millions for 30 years. Recommended by many doctors and nurses. Two Escaped Madmen Being Hunted In Middle West

Lima Fugitive Taken At Omaha

Two Others Escape When Discovered Attempting Robbery Of Armory

HUNT CENTERS IN NEBRASKA

(International News Service)
OMAHA, Neb., Jan. 9.—Two murderous madmen remaining at large out of the band of five who escaped in Ohio on New Year's day were hunted by state and local police throughout eastern Nebraska and neighboring states today.

The two fugitives are Frank Haines, 36, a former Chicago bandit and leader in the escape plot from the hospital for criminally insane at Lima, O., and William Blatz, 32, of Maine.

They broke away after injuring a national guard captain and his wife who surprised them Saturday night in an attempt to raid the militia armory for guns and ammunition.

One Is Captured
William Blatz, 34, an insane killer from Cincinnati, O., was captured in the fight in the darkened armory.

Capt. Earl Kelso, accompanied by his wife, had gone to the armory with Maj. B. B. Miltonberger to inspect equipment. They noticed the door broken open and entered cautiously.

But Haines and Blatz met them with a rush. Haines felled the captain with a blackjack stolen in a robbery the night before in Council Bluffs, Ia., and slashed his leg with a knife. Then he picked up Mrs. Kelso and dashed her to the floor.

Brucks swung at Maj. Miltonberger's legs with a crowbar, but missed and the officer knocked him unconscious with a blow to the jaw. Haines sped outside and disappeared with Blatz who had been acting as a lookout.

Brucks confirmed the story of Frank Nuchels, another member of the gang captured in Cleveland, that Haines had intended wreaking vengeance on his former wife and four Chicago policemen he blamed with putting him behind bars.

He said they had abandoned the plan for the time being because they found Mrs. Haines' house strongly guarded by police.

Marion Pierce, a Negro, and the fifth in the band, separated from the rest in Fort Wayne, Ind., according to Brucks.

Government officials are afraid of a boom. Maybe that is wise, but we can think of many more dreadful ways to be scared.

State Has Most Workers On W.P.A.

Pennsylvania Had Largest Force At Outset Of Present Year

(Special Washington Correspondent, New Castle News)
WASHINGTON, D. C., Jan. 9.—At the beginning of this year, Pennsylvania had more WPA workers than any other state of the nation, according to figures released by WPA Administrator Harrington.

Such workers in the Keystone state totaled 261,500. Ohio was a close second with 261,214. New York came third with 245,592, and Illinois fourth with 241,034.

During the last week of 1938, WPA rolls were reduced to a smaller degree in Pennsylvania than the country at large. In the Keystone State rolls were pared down by 1,305 workers, or about one-half of one per cent. National rolls, on the other hand, were cut more than one per cent.

Mercer Republicans Going To Capital

(Special To The News)
MERCER, Jan. 9.—Following a meeting with railroad representatives, district Republican leaders today sought to meet the quota required to send a special train to Harrisburg on January 16 for the inauguration of Arthur H. James as governor.

Party members of Mercer, Lawrence and Crawford counties will join in making up the train if a sufficient number can be secured. It is hoped that two day coaches and two pullman cars of county residents can be filled. Alton Heutsche, Young Republican president, stated.

Pitt Selects Medical Dean

(Special To The News)
PITTSBURGH, Jan. 9.—Appointment of Dr. William S. McElroy as dean of the University of Pittsburgh School of Medicine was announced today by the executive committee of the board of trustees.

Dr. McElroy has been acting dean of the school since the death of Dean Raleigh Russell Huggins in February, 1938. At that time members of the faculty of the School of Medicine were asked to suggest one or more names for the deanship. The faculty nominated Dr. McElroy unanimously.

Decrease Seen In Expenditures For State Veterans

(Special Washington Correspondent, New Castle News)

WASHINGTON, D. C., Jan. 9.—Expenditures by Uncle Sam on veterans and their dependents last fiscal year increased in the country at large but declined in Pennsylvania, according to figures released by the veterans administration.

The report covered disbursements on account of veterans and their dependents for both direct and indirect benefits. It included costs of maintaining veterans facilities. It did not embrace distributions from trust funds.

Such expenditures in the country as a whole increased to \$568,832,048 in the 1938 fiscal year from \$505,843,868 in 1937. In Pennsylvania, on the other hand, disbursements fell from \$35,036,450 to \$34,891,491. Pennsylvania expenditures had aggregated \$37,033,049 in 1936 and \$36,380,297 in 1935, the 1938 disbursements representing the lowest point of this four-year period.

EAST BROOK

GRANGE MEETING
The installation of officers of the East Brook grange will take place Thursday evening, January 12, at the grange hall. Mr. Shannon, master of Beaver County Pomona grange, will be the installing officer.

HELPING HAND MEETING
Members of the Helping Hand class of the East Brook U. P. church will be entertained Tuesday evening, January 10, at the home of Mrs. William R. Walton, with Mrs. Clair Albom as associate hostess. Entertainment for the evening will be in charge of Laura McKnight and Emily Stundard.

MARY JANE MEETING
The Mary Jane society of the East Brook U. P. church met Tuesday evening with Mrs. E. T. Patterson for their January meeting. A program of mission and medical work being carried on in India by the U. P. church was presented. Margaret Bowden was leader and those taking part on the program were Lillian Edie, Roberta Shelenberger, Mrs. E. E. Douglas and Nannie Black.

The business meeting of the society was conducted by the president, Lucile Patterson, and reports were given by Lillian Edie and Dorothy Smith. Following the meeting, refreshments were served by the hostess, assisted by Emma Boyles.

DINNER PARTY
Mr. and Mrs. E. A. Pontius, Fern Pontius, Mr. and Mrs. John Pontius and sons Robert, Billy and Richard attended a party at the home of Mr. and Mrs. H. V. Everhart in New Castle on Monday evening. Others in attendance at the party were Mr. and Mrs. T. L. Lindsay, Miss Martha Dinsmore, Mr. and Mrs. D. B. McKnight and family.

EAST BROOK NOTES
Mr. and Mrs. Willard Bowden visited during the holidays with Rev. and Mrs. James M. Guthrie of Ontario, N. Y.

Mrs. A. J. Likens has moved to the home of her niece in Portersville. Mr. and Mrs. C. T. Hallman and children Sally and Bobby are spending a few days at the home of her father, James B. Jameson.

CENTER CHURCH
Services have been conducted every day during the week of prayer by Rev. B. M. Wallace. The services proved both interesting and helpful to those who attended.

TO PRESENT PLAY
On January 11 at 8 p. m. at the Center church, the young people of the Slippery Rock Presbyterian church will present their play "The House on the Sand."

MISSIONARY MEETING
Members of the Ladies' Missionary society met at the home of Mrs. Charles Williamson on Thursday for an all day session. A tureen dinner was served at noon, places being laid for 18. Quitting was the chief work of the day. The quilt is to be sent to Mrs. Fred Patterson of the Tama Indian Mission in Iowa. Mrs. Patterson presents a quilt to each Indian bride who is married at their parsonage.

Mrs. William Leslie and Mrs. Eva Gibson were added to the work committee. The program committee, to prepare new programs, includes Mrs. Scott Guy, Mrs. Esther Shaffer and Mrs. J. M. Houk.

CENTER CHURCH NOTES
Mrs. L. Wallace returned to her home in Pittsburgh Thursday after spending a few days at her home here.

Mr. and Mrs. L. M. Wilkinson and Mrs. Nettie Wilkinson, of Mahoningtown, visited Mr. and Mrs. Zehner recently.

Mr. and Mrs. Edgar Byers, New Kensington, were recent visitors here.

Mr. and Mrs. J. G. Weir visited Mr. and Mrs. Bert Grimes, Slippery Rock, recently.

Hawaii produces about 216,000,000 cans of pineapple annually. Placed side by side, these cans would reach halfway around the world.

Willard Grange Host To Pomona Grange

Willard Grange was host to the members of Lawrence County Pomona grange when they met in special session Saturday, Jan. 7, 1939. The meeting was well attended, representatives being present from each grange of the county.

Lawrence County Pomona grange had the honor of being presided over by Pomona Master, Honorable W. Sharp Fullerton, who has recently been seated as a member of the general assembly at Harrisburg.

At the morning session the grangers were privileged to listen to a travelogue of places of interest in the northwest, presented by Past State Master J. Audley Book and Mrs. Book, who were delegates to the recent meeting of the national grange at Portland, Ore. A number of pictures were passed among the members.

Following these talks echoes were heard from the recent meeting of state grange at Washington, Pa. A delegate from each grange gave his or her impression of the highlights of the meeting in brief remarks.

The grangers were welcomed by J. Francis Book, master of Willard grange, and the response was given by Glenn Patterson, master of East Brook grange.

The afternoon session opened with pep singing led by W. H. McCulloch of Big Beaver grange. With Wendell Dean of Willard grange acting as marshal, Past State Master J. Audley Book installed John Boots of Pleasant Hill grange as a member of the executive committee. Mr. Boots was re-elected at the December meeting for a period of three years.

Mr. Ricks, who is taking H. R. McCulloch's place as county agent during Mr. McCulloch's leave of absence, introduced R. H. McDougall, county agent of Butler county, who judged the grain exhibits.

Mr. McDougall gave an interesting talk concerning the requirements of good grain. He stated that grain is selected with the thought of emphasizing market requirements and also good seed requirements.

Three things looked for as a sign of good grain are: Weight when dry, bright color, and plump mealy kernels.

In selecting corn, look for uniformity in size and shape of ears and in size and shape of kernels.

During the past months seven

Reply—Mrs. Judson Lamson, Pomona, Ceres, Big Beaver.

Willis McCulloch of Westfield grange, accompanied by Miss Myrtle Johns, pleased with a warmbone solo.

Hugh Fergus, master of Slippery Rock grange, talked on "Hybrid Corn." Mr. Fergus gave an instructive explanation of the method of obtaining hybrid corn. He stated that hybrid corn will produce about 50 per cent more corn per acre than open pollinated corn. The stalks of common corn are much weaker than those of the hybrid corn. All hybrids are not good hybrids. Hybrid corn is graded and inspected before being sold for seed. New seed must be purchased each year.

A silver loving cup was presented to J. Audley Book, member of Lawrence County Pomona, as a token of appreciation and in recognition of his services as state master for the past six years. The presentation was made by Hon. W. Sharpe Fullerton in behalf of the members of Pomona grange. Past Master Book gave a fitting response.

The loving cup is inscribed as follows: "To State Master J. Audley Book, 1932-1938, from Lawrence County Pomona Grange No. 65."

The grangers now had the pleasure of hearing the mixed chorus of Big Beaver grange led by W. H. McCulloch. This chorus won first place in the state contest, held at Washington, Pa., during state grange. Three numbers were rendered by the chorus.

The program was arranged by Mrs. E. C. Wiggins, Pomona lecturer. A vote of thanks was extended to the members of Willard grange for their hospitality.

The next meeting of Pomona grange will be held at Pleasant Hill grange on the second Saturday of February, or February 11, 1939. Since the Wool Growers' Association meets the first Saturday of February, this change of date was made.

A delicious dinner was served at noon by the ladies of Willard grange.

17,000,000 Calls

Last year, the people of New Castle made 17 million Bell telephone calls! Some of these were just neighborly calls to the folks across the street. Some were emergency calls where seconds counted. Other calls carried messages of friendship or business across the continent.

What some of these calls were worth, no man can say. You can't put a price on minutes saved when you need a doctor quickly. Sometimes the sound of a certain voice can bring more happiness than words can express. And who can say how many smiles begin with the ring of a bell?

It is easy sometimes to count the hours or miles or dollars saved by a telephone call. But the telephone does more than that. It lifts the load of worry and brings new hope. It can cheer the lonely and keep old friendships alive!

We in the telephone business never forget that behind every telephone number there are people—people who depend on us for swift, accurate, reliable service. In 1939, as in the past, we shall keep that service as courteous, as friendly and as helpful as we can make it.

Mutual understanding and cooperation between the people of this company and the people we serve are essential to the high quality and low cost of your telephone service.

THE BELL TELEPHONE COMPANY OF PENNSYLVANIA

It takes money to build a telephone plant and to keep it growing. Nearly three-quarters of a million people have invested part of their savings in Bell System securities. Right here in New Castle there are some 100 people who own stock of the American Telephone and Telegraph Company. And some 12,000 Pennsylvanians own Bell Telephone bonds.

More than 600 drivers of Bell cars and trucks in Pennsylvania have 100,000 miles or more of safe driving to their credit. There are 24 Bell motor vehicles in operation in Lawrence County.

RISKY

Dad was trying to read, but young Willie was pestering him with questions.
"Dad," he said, "does the ostrich sometimes bury its head in the ground?"
"Yes, yes," replied dad, testily.
"Then," went on the boy, "how does it remember where it buried it?"

Progressive Club
Elects At Meeting

Re-Elects Albert Dottle As
President Of Seventh
Ward Organization

Election of officers for the coming year was held by members of the Seventh Ward Progressive club at their meeting Sunday afternoon in the club rooms, 115 Montgomery avenue.

Albert Dottle, first president of the organization, was re-elected to a second term.

Alce Facella was elected vice president; Glen Ploss, secretary; Patsy Farrone, treasurer; Joseph Evans, Peter Ryan, Tony Recco, Louis Delle and Angelo Piccarello were elected as trustees.

Plans were made for a social meeting on Tuesday, January 31, in the club rooms.

WORKMEN STILL BUSY
WITH MAPLE STREET

City-WPA workmen are still busy on Maple street. The workmen started sometime ago to construct stone gutters along this street.

Place for the gutters has already been dug out along one side of this street, and within a short time, the completed new gutters will take the place of a bad water situation that has heretofore existed on this street.

CHRISTIAN CHURCH

Society activities at the Madison Avenue Christian church for the coming week were announced today as follows:

Berean class will meet at the home of Mrs. Frank Rhinehart, Madison avenue, Tuesday evening.

Wednesday afternoon, the Ladies Aid society of the church will meet at the home of Mrs. W. I. McCarty, Clayton street.

A tureen dinner at 6:30 o'clock, Thursday evening, will be given to mark the third anniversary of the Crusaders class. This will be held in the church dining room.

GUEST PREACHER
IN WARD SUNDAY

For the regular morning service of the Mahoningtown Presbyterian church, a guest minister was in the pulpit, Rev. Charles N. Moore, a retired Presbyterian minister, was the preacher and he delivered an inspiring sermon.

Due to the fact that Rev. D. C. Schnebly was out of town, there was no evening service on Sunday.

NEWS BRIEFS IN
WARD DISTRICT

All of the Christmas decorations have now been stored away until next year. According to the Seventh Ward Civic club the lights belong to the community and will be used only for community events.

Instead of a skating rink, the once popular rink of the Seventh Ward Progressive club, rear of Montgomery avenue, now closely resembles a small lake or swimming pond.

Even through the winter months, Owen Penfield Fox, city forester, cares for the park in the Seventh Ward. Everything that might be harmed by the cold and frost has been carefully taken care of. After a heavy snow, Fox or some of his helpers always take pains to sweep the sidewalks clean about the park.

More and more of the younger set in the ward are turning to model airplane construction. In the scout troop this is a popular pastime. There are several of the ward model builders in the New Castle Model Airplane association.

Many motorists have spoken highly of the great improvement made when North Liberty street was resurfaced between Clayton street and Mahoning avenue. Many also stated a desire to see the remainder of the street resurfaced from Mahoning avenue to West Washington street.

Mahoning Methodist Church To
Be Host For Sub-District
Institute

Rev. D. J. Blasdel, pastor of the Mahoning Methodist church, announced preliminary plans today for the New Castle Sub-District Epworth League Mid-Winter Institute to be held at the ward church.

This Institute will take place on January 30, 31, and February 1. According to Rev. Blasdel, all of the young people of the Methodist church should attend these meetings whether members of the Epworth league or not.

As soon as the full program of activities is worked out for these meetings, it will be announced.

METHODIST TEAM
GETS NEW UNIFORMS

Tonight the Mahoning Methodist basketball team will appear on the floor for their big league game with all new uniforms.

The new uniforms for the players arrived in town Saturday and were immediately distributed. The uniforms are of black and white material, the colors of the team, and present quite an attractive appearance.

METHODIST CHURCH

Activities for the week at the Mahoning Methodist church were announced today as follows:

The Sheehy-Miller society will meet at the home of Mrs. W. C. Shanafelt, West Madison avenue, tonight. Mrs. L. C. Godwin will be co-hostess.

Tuesday the Women's Home Missionary society will meet at the home of Mrs. H. Wiley, Madison avenue.

Mrs. W. E. Howard's section of the Ladies' Aid society will meet in the church at nine o'clock Wednesday morning.

SEVENTH WARD PERSONALS

Mrs. Anna Rose Palumbo of Wabash avenue has concluded a visit with her daughter, Mrs. Teresa Mine of Rochester.

Peter Fiocco, son of Mr. and Mrs. Albert Fiocco of South Lafayette street is recovering from illness, which has confined him to the New Castle hospital.

Shatter Bulbs
In Beach Club

Last night police received a report from attaches of the Beach club, Neshannock avenue extension, or Second Dam, that vandalism was committed in the club. Electric light bulbs were broken. According to a woman who lives in the district she heard one person say: "If you are going to keep doing this I am going to leave before I get into trouble." The reported vandals committed the act about 3:30 a. m. Sunday, it was learned by police.

TO MEET TONIGHT

The regular meeting of the Universal Sanitary employees group will be held at 7:30 o'clock tonight at the Eagles Home on South Jefferson street.

Four new synthetic fabrics are being developed from milk, fish, soy beans and meat.

Typist Hurt In Attack
On Roosevelt Weds

WASHINGTON, Jan. 9.—Margaret Krus, Washington, D. C., stenographer who was struck by one of the bullets that would-be assassin Zangara directed at President Roosevelt in Miami early in 1933, has been married to J. Sturgis Turner, of New York City.

Mrs. Turner is well known to many New Castle people. Two years ago she attended a birthday dinner given to Fred L. Rentz at the McAllister hotel in Miami, Florida and furnished a big birthday cake for the occasion. Over a hundred former New Castle and New Castle people attended the dinner.

The wedding ceremony was held at the home of Mrs. Turner, 211 Newell avenue. Two preparatory services will be held this week. One on Wednesday evening with Rev. D. C. Schnebly in charge. The other will be on Friday night with Dr. C. B. Wingerd, of the Central Presbyterian church, in charge. Both services are scheduled for 7:45 o'clock.

Wedding Eve Death
Not Murder, Suicide

MARYSVILLE, O., Jan. 9.—Clark S. Hayes, 28, drowned himself on his wedding eve, Prosecutor William S. Porter asserted today, because a physical imperfection made marriage "unthought of."

The weighted body was pulled from an abandoned quarry pool near here Thursday.

Hayes, grocery clerk, was to have married his childhood sweetheart, Orlena Morrow, 26, who also worked in the crossroads grocery.

"He was as much woman as man and he realized marriage would be unthought of," Porter said in an announcement following funeral services for Hayes.

Battle At Ellwood City Will Break Deadlock For Section Three Lead

ALIQUIPPA HIGH HERE ON FRIDAY

New Castle high school basketball team, co-holder with Ellwood City high of first place in the Section Three title race, will go to Ellwood City high floor Tuesday night for a game that will break the deadlock. It is indicated that the biggest crowd of the year will pack the Ellwood gym for the battle.

Ellwood City with a fast and well balanced team, has knocked off two big Section Three contenders in Aliquippa and Beaver Falls.

Expect Fine Game
New Castle has also won from two Section Three contenders, New Brighton and Ambidge. "At this writing, the result tomorrow night is a toss-up. It will be two fine basketball teams contending for the top rung of the section.

Coach Phil Bridenbaugh has satisfied himself with Clark, Geunock, Bombyk, Wenda and Lano as his regular starting five.

On Friday night of this week Aliquippa high will appear at the Arena court, but the big test for the locals is to get by this fast Ellwood City high tonight tomorrow night.

Bridenbaugh has called for a strenuous workout at the Arena this afternoon in preparation for the hard contest that awaits them at the hands of the Blue and White Wolverines of Ellwood City.

N. Y. A. Defeats Wampum Quintet

The N. Y. A. basketball team won from the Wampum Shamrocks Saturday night at the Wampum floor, 52 to 25, with Harry "Kaiser" Toscano the scoring star of the battle. At the half the locals led 25 to 7. Fontana was the best bet for the Wampumians.

Rambling Around World Of Sports

For color and thrills, Lawrence county class B athletics occupy an important post in the sports spectrum. As we watched New Wilmington and Shenango high battle for the leadership of Section 20, we were dumfounded at the proceedings. The cheering—the loudest and most enthusiastic we ever heard at a basketball game. As for the playing—it was hard and clear throughout. The gallery, the biggest since the Shenango high auditorium cropped up back in 1927, almost tore the rafters apart following a score. . . . Class B followers back their teams to the "nth degree." We milled around and asked if this was cut of the ordinary. "Should say not, just a regular class B game," was the reply. The way the game is developing, it looks like there may be a need for bigger hardwoods.

With the basketball season in full swing, two Lawrence county teams are deadlocked for the leadership of section 3, regarded as the toughest sector in the W. P. I. A. L. . . . Ellwood City and New Castle high will switch nets in Ellwood City, Tuesday night, for the supremacy of the circuit. . . . The Wolverines cashed in with triumph over Beaver Falls and Aliquippa, two of the hot shots. . . . The Canes first disposed of New Brighton and then the crack Ambidge outfit. . . . One of the biggest crowds of the season is sure to see the clash which should be loaded with action.

Sport sidelights. . . . Chester Gilbert, a 145-pounder, Kansas sophomore, was the only drop kicker in the Big Six in '38. . . . Pat Edward Czemsky, the current Jersey heavyweight, is only 18 and therefore not eligible for main bouts in New York state. This means that settos with Lou Nova and Tommy Farr are off. . . . John Hillerick, aged 73, who has made baseball bats for the greatest players of all times, has put together some 54,000,000 war clubs during his career. . . . It took Winkle Autrey nine years to score a touchdown. The Mississippi senior center crossed the last chalk stripe for the initial time in '38, intercepting a Centenary pass and dashing 16 yards.

Night football. . . . A report from Omaha university is the most conclusive argument in favor of after dark sports. The Nebraska institution, like many others, was suffering heavily from lack of grid customers. The idea of night football was aired to the left and to the right. Finally the moguls decided to try the nocturnal battles. In 1937, the gross receipts were only \$92.78. Last fall, night football made its debut. The receipts jumped to \$1,454.15.

Did you know? . . . Charles Chukovits, Toledo university forward, is one of the highest scoring centers in the land, averaging close to 20 markers per tussle. . . . During 12 years of collegiate basketball competition, Westminster has copied 199 games against 47 losses (record includes wins over Geneva and Carnegie. Saturday's game not included in the clash which should be loaded with action.

Titans Defeat Slippery Rock

Westminster Takes 43-26 Victory In Contest On Saturday Night

HETRA LEADS IN NIGHT'S SCORING

(Special To The News)
NEW WILMINGTON, Jan. 9.—Taking their third straight game of the season Saturday night, the Westminster Titans found little difficulty in defeating the Slippery Rock cagers 43-26. Throughout the final quarter the Titans substituted freely.

Scoring honors for the evening went to a new point-getting cager for the Titans, as Joe Hetra, former Penn Stater, from Sharon, scored 13 points in the second half on five goals and three free tries. Mel Miller and J. Wilson, starting Titan forwards, scored 14 points between them.

The game was rough and fouls were called freely, but the Titans failed to mark up as good a record on free tries as they did at Carnegie Tech, where they capitalized on 19 of 22 free throws. Against the Rockets, Westminster converted about 40 per cent on charity tosses.

For the Rockets, Stevenson, of Farrell, former Titan player, was high-point man with 11 points, and leading defensive player for Slippery Rock. Under splendid guarding by Titans Wasik, Spak and Hetra, the two Rocket forwards, Captain Nahas and Lytle, scored only four points between them.

Noticeable throughout the evening's play was a speedier offensive by the Titans, and a defense that made it hard for the Rockets to penetrate.

Slippery Rock went into an early lead as Van Horn scored on a close-in shot, but Miller retaliated for the Titans and tipped in a basket on the rebound. Van Horn again failed on a tip-in, but the Titans took the lead as Wilson scored on one of two fouls and Wasik sank one from deep center. Stevenson scored a free throw for the Rockets to tie the score at 5-5, and followed with a second charity toss to give Slippery Rock a 6-5 lead. Miller's score from deep side for Westminster gave the Titans a quarter-lead of 7-6.

The Blue and White forged into the lead in the second quarter as Wasik took a set up, Wilson sank a counter on a long pass and Hetra dropped a free try. The Rockets added three points in 11-6 advantage. Van Horn took a free loss for the Rockets, and Wilson followed by counting on a dribble-in. Stevenson tallied on a rebound for the Rockets and Wasik and Hetra each added points from the foul line. With the score 15-9 for Westminster, Wilson took one of two fouls and Stevenson took a close-in score for the Rockets. Fox, substituting for Miller of Westminster, scored under the basket, and the Titans led at the half 18-11, as Coach Washabaugh sent in a flock of substitutes.

The Titans kept increasing their lead as the third quarter opened, with shots from deep front by Wasik and J. Hetra. The Rockets added three points. Stevenson sank a rebound and Eagleson took a free one. On two spinner shots, Wilson and Wasik increased the Titan lead to 27-16. Following Eagleson's free shot for Slippery Rock, J. Hetra went on a scoring spree for the Titans that contributed four points, and Eagleson added two for the Rockets. Miller for the Titans scored from a set-shot, and Hetra followed with three points on a basket and a charity throw. With the score 36-18, Stevenson added two for the Rockets. Hetra scored his fifth goal for the Titans in four minutes from deep side, and C. Miller made one of two.

Substitutions were being added freely throughout the final quarter by the Titans. In a temporary spurt, the Rockets added four points on a deep side flip by Nahas and Van Horn's shot on a rebound. Riddle sank one in front for the Titans and Fox shot an underhand to end the game at 43-26 in favor of the Blue and White.

The Mid-Atlantic Baseball League at Charleston, W. Va., Sunday adopted a 130 game schedule for this year.

Wesley Wallace, Fordham U runner, ran the 500 meters in 1:04.4 in the K. of C. games Sunday in Brooklyn. Officially that shattered the American record of 1:05, made by Alan Heffrich in 1926 and equaled by Phil Edwards in 1930. In common reckoning, however, it set a new indoor record mark, as board-track running is confined almost entirely to the U. S. Don Lash, winner of the Sullivan award, who is a member of the Indiana State police, won the 3,000 meter invitation race in 8:28, a mark six-tenths of a second back of the American record earned by Archie San Romani when he beat Lash a year ago.

Sports Fiesta Here On Tuesday

New Castle Boosters Battle New Kensington In Feature Attraction

A sports fiesta, the first in the history of New Castle, will make its debut here on Tuesday. The sports roundup, scheduled for the spacious Arena court, features a basketball game between the smooth local New Castle Boosters versus the crack New Kensington Polish Falcons at 8 o'clock, roller skating and a hockey game bringing together the Arena aggregation against another crack local outfit.

The Boosters will be out to avenge a recent setback suffered in New Kensington. The Falcons won a close victory on their small hardwood several weeks ago. The Falcons have one of the smoothest functioning basketball machines in the section and will prove a tough foe for the Frasersmen. The game starts promptly at 8 o'clock.

One of the biggest crowds of the season is expected to attend New Castle's initial sports event of this kind.

Jimmy Demaret, Houston professional, led a stellar field by five strokes into the final round of the 72-hole \$5,000 Los Angeles open golf tournament.

Grove City To Play Titans On Tuesday

(Special To The News)

NEW WILMINGTON, Jan. 9.—Reopening a basketball series which has been carried on intermittently from 1902 until 1934, Grover Washabaugh's tall Titans from Westminster will meet Grove City cagers Tuesday evening, January 10 on the New Wilmington court, in the first of what is hoped will be a renewal of home-and-home seasonal court ties.

Featuring the passing of Maurice Patterson and the shooting ability of George Pelach, the Grovers will attempt to stem the Miller-Wilson paced offensive.

Minor injuries may mean an early substitution for Stan Wasik, former South High Pittsburgh, who kingpins the Titan defense. Either Ridi,

Irwin freshman of J. Hetra, Penn State transfer from Sharon will take his place in the Blue and White line up.

Facing the 39th game on a series which opened with a 65-24 Titan victory in 1932, Westminster will seek its twentieth win, and the Grovers their eighteenth, in the all time series. The two schools broke court-relations in the spring of '34 when Bennett and Co. gave the Titans a 50-15 decision.

Grove City's Crimson will touch off a busy court-week for the Titans which includes a tilt with Geneva at Beaver Falls, Thursday, January 12, and the season's annual highspot, the court ante with the University of Pittsburgh at the Stadium, Saturday January 14.

One Sectional Game On Tuesday

Bessemer Clashes At Wampum High In Lone Section 20 Tussle

Only one Section 20 clash is carded for Tuesday night, Bessemer battling Wampum high at Wampum. The Cement City Five one of the pre-season favorites to cop the sectional banner, goes into a deadlock for first place by annexing a triumph tomorrow evening.

New Wilmington's cagers travel to Mercer high, Shenango, Union, M. Jackson and East Brook along the sidelines.

Officials Named For County Games

The Bessemer and Wampum game at Wampum which was originally scheduled for January 12, has been moved to the 10th and will be played Tuesday at Wampum instead of Friday with Bill Wallace and J. Uram doing the officiating.

Friday night in the Section 29 games the following officials have been assigned Shenango at East Brook—Hutchinson and Commandow. Union at New Wilmington—Wesmann and El Lockey. All of the above named officials are members of the Lawrence County Referee's Association.

BUSY SCHEDULE

FOR N. Y. A. FIVE
The N. Y. A. basketball team will play the Sport Page club team of Campbell, O. on Tuesday night at the Lincoln-Garfield court, and on Friday night will battle the fast Youngstown Ukrainian team at the South Side floor here.

Buck Newsum, star pitcher for the St. Louis Browns, indicates he will be a holdout for a \$20,000 salary in 1939.

Polish Falcons Defeat Natrona

The Polish Falcons handed the Natrona Citizens team a 28 to 21 defeat yesterday afternoon at the Falcon hall with Eddie "Kash" Koszela the scoring star of the game. At the half the Falcons led 18 to 13. Best for the visitors was Zolnik and S. Lewandowski.

Friday night the Falcons lost to the Irene Kaufmann team in Pittsburgh, 42 to 26. Tuesday the Falcons will battle the Sharon-Farrell S. E. U. team here.

Frasermen's Second Half Spurt Net Seventh Triumph Of Season

Staging a second half spurt that bewildered their foes, the New Castle Boosters chalked up their seventh basketball triumph of the season, polishing off the strong Braddock Collegians, 47-34, Sunday at The Arena before several hundred spectators.

Throughout the first half, the lead shifted numerous times. Finally, the Boosters knotted the count and went into a 24-20 lead as a result of field goals by Tom Carey and "Blackie" Nocera. With "Pop" Adams setting the pace with seven markers, the local Boosters flashed brilliant form in the last half to annex an easy triumph.

Johnny Carik split the curtains for 11 markers followed by Adams with 10 and Grommes with seven points. Ogradnik led Braddock's attack with 14 markers.

Tonight the Boosters face a stiff opponent, battling the Hub-Oilers at Oil City. Tuesday's attraction brings the New Kensington Polish Falcons to The Arena.

Mrs. Tirzah Wimer Dies This Morning

Passes Away In Hospital From Injuries Sustained In Fall At Home

ELLWOOD CITY, Jan. 9.—Mrs. Tirzah McLane Wimer, aged 65 years, wife of William A. Wimer of Sixth street, passed away early this morning at the local hospital from injuries sustained in a fall at her home on Friday, December 23.

Mrs. Wimer had not been well for the past three years and the injuries that proved fatal were received when she fell down the attic stairs of her home, severely injuring her spine.

A daughter of the late James A. and Perinah Nye McLane, she had resided her entire lifetime in the Ellwood City vicinity, and had a wide assemblage of friends and relatives, who will be greatly sorrowed by her death. She was an esteemed charter member of the Rebekah Lodge and an active and faithful member of the G. A. R. Lodge, Sons of Union Veterans Auxiliary and the First Christian church.

In addition to her husband, she is survived by one son, Edward R. Wimer, of Fifth street.

Funeral services were incomplete and will be announced in Tuesday's paper.

First Half Crown Clinched For Shelby Hot Finish Quint

Inspection Wins First Game To Topple Balbo's 28-27 In Close Game

ELLWOOD CITY, Jan. 9.—The first half crown was practically clinched for the Hot Finish in the Shelby Basketball league on Saturday night when the Cold Draw rallied in the last half to defeat the second place Cold Finish by a score of 36-30. The Cold Finish is the only team that has humbled the title contenders this year.

After losing many a game this year by the discouraging margin of a point or so, the Inspection finally won their first game of the season on Saturday night when they defeated the strong Italo Balbos 27 to 26. While the scoring was very close throughout the entire game an 11-point rally in the third quarter provided the victory edge for the ultimate winners. With 15 seconds remaining Greco made a throw from the charity stripe count the winning point.

Wednesday evening the Office will play the Cold Draw and the Hot Finish will meet the Italo Balbo.

The Shelby All-Stars' first clash proved disastrous as they lost by a score of 54-24 on Sunday afternoon to the St. Mary's five at Beaver Falls. All of the St. Mary's team passed the six-foot mark and the advantage of height was too much for the Shelby team, which is composed of the leading players of each of the league's teams. A game is planned for Friday night with the details to be announced.

ELLWOOD PERSONALS

Mrs. Sarah Karch and son, John, of Pleasant Hill have returned home after visiting with relatives in West Virginia state.

Rev. Joseph E. Pringle, pastor of the Bell Memorial Presbyterian church, who has been quite ill at the Jameson hospital, New Castle, following a major operation, is showing improvement.

Richard Duncan, who has been undergoing treatment at the Bashline-Rossman hospital, in Grove City has been removed to his home, in Fifth avenue.

Mr. and Mrs. James Whitney and daughter Edna have returned home in Rural Valley, after visiting at the home of Mr. and Mrs. E. T. Whitney and family of Wayne avenue.

Mr. and Mrs. Gerald Barnett, of Lawrence avenue, were guests on Sunday at the home of Mr. and Mrs. Earl Friday, of the Ellwood-Zellenople road.

The condition of Mrs. Floyd Stickle, of Perry township, who has been confined to the local hospital suffering from a severe felon infection, is improving, her many friends will be glad to know. It was necessary to amputate the first two joints of the infected finger.

Collar-Bones Broken In Auto Accident

Two Automobiles Crash Sunday Three Miles North Of Harlansburg

When two automobiles traveling three miles north of Harlansburg on the Perry highway crashed at 4:45 p. m. Sunday, Mr. and Mrs. William Jones, mother of William E. Jones, 19, operator of one of the cars involved, sustained a fracture of their right collar bone. They are in the Mercer hospital. The Jones are from Ingomar.

According to the State Motor police, Jones was driving toward Harlansburg and J. Kenneth Welkale, 28, Clark, Mercer county, was driving toward Mercer.

Welkale claims he looked, saw no cars and began a left turn from the highway to a produce stand. His car was struck by Jones' auto, the police state.

Jones car was damaged considerably. Welkale's car was slightly damaged.

Save Three in Cave-In

The collapse of temporary boarding on wall of an 18-foot excavation in the Bronx, New York, caused a landslide that trapped three men beneath heavy wooden shoring and tons of dirt. Rescue squad of firemen finally dug the men free. John Cahess, 38, who was buried for more than an hour, is carried on stretcher to waiting ambulance.

Synthetic Rubber For Soviet Tires Complete Failure

(International News Service)
WARSAW—Soviet Russian experiments in production of artificial rubber to make this country independent from foreign imports have failed, according to information reaching here.

After years of scientific research, Soviet chemists succeeded in producing a rubber substance from plants found in the central Asian territories and called "kau sagzy" and "kok sagzy."

To prove the adaptability of the artificial rubber for manufacturing of car tires, the Soviet military authorities ordered practical tests on a fleet of 12 trucks. According to reliable information, the commissar in charge of the test trucks reported to the Moscow government that the artificial tires were of no use at all.

After 100 or 200 miles miles the tires simply cracked up. Experts claim that this discouraging result is due to faulty production methods employed for manufacturing tires. In Polish political circles it is believed that the GPU will shortly start investigating into possible sabotage in the artificial rubber industry built up by the Soviet government at enormous costs.

Aid For Anemic Found In Oyster

(International News Service)
MIAMI, Fla.—A means to aid the prevention of nutritional anemia has been found in the Apalachicola oyster, available in this area the year round due to climate conditions, scientists announce.

The Florida oyster, containing a higher content of iodine than those found anywhere in the United States, has the four vitamins, A, B, D, and G. It contains iron and copper for the blood, phosphorus and calcium for the bones and teeth and iodine for healthy thyroids.</

Lawrence County Farms And Farmers

By H. R. McCulloch, County Agent

ACCOUNT BOOKS PROVIDE CHECK ON FARM BUSINESS

With the beginning of another year, many Lawrence county farmers are making plans to close their present account books and open another.

Keeping detailed financial records of the farm business provides information for a complete analysis at end of each year. It shows which enterprises are proving satisfactory. A program can be planned for increasing the possible income by using more approved methods.

The first step in opening a farm account book is taking an inventory of the business. This, if done in January, gives the farmer ample time before the beginning of spring work to make necessary adjustments in his plans.

The inventory gives an excellent picture of the financial status of the farm. It places the farm on a business basis. It shows the value of the property. In case of fire, settling an estate, or in similar cases, it provides a list of all property. The farmer can determine from his inventory whether he is getting ahead financially.

Although an inventory can be taken at any time, early January has been found most satisfactory by many farmers. Other work is not pressing, feed supplies are low, and weather conditions usually make it desirable to have an inside job. Most farmers have time to compare results with those obtained other years.

Farm account books and inventory sheets are available at the office of the Agricultural Extension Association, 206 Post Office building, New Castle.

PROPER CARE BOOSTS RETURNS FROM EGGS

During the periods of relatively high egg prices, opportunities for larger profits exist if production is kept at a high level.

A comfortable house is necessary if the flock is to be kept laying during cold weather when prices are frequently best. Plenty of fresh water and good feed are essential. Artificial lights, wet mash and liquid milk also help promote satisfactory production.

Artificial lights lengthen the working day for laying hens. This results in greater intake of feed which is necessary if production is to be kept at a high level. Some poultrymen use lights either in the morning or at night, while a few keep them on all night. Morning lights usually work in best with the labor routine.

No matter how carefully the birds are tended, unless a high quality laying mash is kept in the hoppers at all times and a good scratch grain fed morning and night, good results need not be expected.

Feeding either a wet mash or pellets usually helps produce winter eggs. Many poultrymen find that the best results are obtained when this supplemental feed is given at noon. Wet mash may be provided

by mixing milk or water with regular mash. With the use of lights, birds usually will consume enough feed without being fed a wet mash. Since properly handled pullets will be in prime production at 7 to 12 months of age, it is important to hatch birds so their best laying period will come when eggs ordinarily sell at the highest prices.

BABY BEEVES EXHIBITED AT 1939 FARM SHOW

Four-H baby beves at the Pennsylvania Farm Show will be better than ever if present indications hold true. The show is being held from January 16 to 20.

This year 297 calves were fed in 13 counties. In recent roundups 100 were selected for exhibition at the farm show. It represents the heaviest cut the calves have taken in the history of the show.

This should mean better cattle for the show and sale. Figures secured on 80 per cent of the cattle sold at the farm show last year show that the dressing percentage of the carcasses based on their cold dressed weight was 61.5 per cent. This gives some idea of the quality and finish that the calves carry since the usual dressing percentage for cattle ranges from 54 to 58 per cent.

Berks, Blair, Chester, Cumberland, Dauphin, Franklin, Lancaster, Lebanon, Lehigh, Mercer, Montgomery, Northampton and York counties will have 4-H baby beves at the farm show.

PLAN CHILDREN'S CLOTHING EXHIBIT FOR FARM SHOW

Mothers of young children will want to visit the educational exhibit put up by the home economics extension division of the Pennsylvania State college at the 1939 farm show in Harrisburg.

The theme of this exhibit, "The Child in the Home"—his food and his clothing, his toys and his room, will give visitors ample opportunity to observe the more recent, scientific approach to child care and training.

One angle of this scientific approach takes account of the special clothing needs of children. Miss Julia Markle, home economics extension representative of Lawrence county, points out, "Clothes for infants and young children definitely affect their health and habit formation."

The comfort of the child is the first essential. She says that garments properly cut and fitted and of roomy design allow freedom for the constant activity of the child. Often allowances for growth can be worked into the design. Garments made large, enough to grow into often hamper the child's activities, and what is just as undesirable, they never look as though made for him.

Conveniences which make dressing an infant and a small child easier also mean less handling of the child. Among these so-called conveniences are generous plackets, raglan sleeves and garments open in the back. These will be on display at the farm show, January 16 to 20, for mothers to see and inspect carefully.

When the older child shows an interest in helping himself, clothing specialists recommend garments that encourage this independence. Garments simple in design, easy to put on, generous front plackets, large buttons or zippers help the child to help himself.

Materials which are attractive, durable and non-irritating are most desirable for children's clothing. Cotton fabrics can be laundered frequently, and for this reason they make up the majority of clothes for small children. Wool for outer garments is warm but light in weight.

These are some of the facts obtained from a recent study on fabrics and designs for children's clothing made by the Bureau of Home Economics in Washington, D. C. Other points on the clothing problem will be brought out in the exhibit at the farm show.

Begin Plans For Boy Scout Week

Local Scouts Plan Gala Celebration In Cooperation With National Event

SCOUTS TO RUN CITY FOR HOUR

Plans are now taking shape for the observance of National Boy Scout Week in the local district. Beginning with February 5 through February 11, will be the week of observance.

The local celebration will begin on Sunday, February 5, with Church Day. Scouts from the various troops will attend the churches in a body and in full uniform.

One of the big days of the week will be Saturday, February 11. At this time scouts and their dads will invade Camp John Phillips for a day of frolic in the outdoors. There

will be an outdoor field meet at this time, and a gay program of activities.

Civic Day for the scouts will be on February 11. At this time the city officials will relinquish their offices to Boy Scouts for the period of one hour. Scouts will be chosen for the various offices on January 21, in the scout office. Each troop will send representatives to this meeting.

The big event of the week's celebration will be on Tuesday, February 14, in the form of an anniversary dinner. This will be held at Ellwood City, and Thomas J. Keane, national director of senior scouting from New York City, will be the main speaker.

During the week there will be a troop visiting night at which time boys not already scouts will be invited to attend the troop meetings and mingle with the boys.

One night will be set aside as parents' night, at which time parents and friends of scouting will be invited to see the various troops in action.

Window displays telling about scouting will be placed about the town during this week and will tend to tell the public about the great work the scout movement is doing about the land.

According to Karl F. Green, local executive of scouting, arrangement committees to work out the details for National Scout Week will be named within a short time.

Auto Accidents

National Auto Fatalities For 1938 Totaled 8,077 As Against 10,109 In 1937

(International News Service) WASHINGTON, Jan. 9.—Deaths from automobile accidents in 134 major cities during 1938 decreased 20 per cent, the Census Bureau reported today.

Fatalities numbered 8,077 during the past year, as compared with 10,109 in 1937, according to the bureau.

Only one community—Cleveland Heights, O.—boasted of a clean record with no automobile deaths during the year.

New York City, with 912 fatalities, had the largest number of automobile deaths, followed by Chicago with 658 and Los Angeles. Auto deaths in other cities included Baltimore, 180; Canton, Ohio, 33; Cincinnati, 145; Cleveland, 18; Columbus, O., 83; Detroit, 216; Erie, 38; Pittsburgh, 136; St. Louis, 84; San Francisco, 101; Toledo, 83, and Washington 134.

The manager of a theater interviewed an applicant for the position of an attendant. After asking the man several questions as to his suitability for the job he finally asked him: "What would you do in case of fire?"

"Oh, me," said the man, "don't worry about me. I'd soon get out."

Fifty-Five Occupational Groups In New Assembly

(International News Service)

HARRISBURG, Jan. 9.—Domesticated as usual by attorneys, the 1939 regular session of the state legislature is comprised of 55 different occupational classifications, ranging from a lone miller to 12 executives.

In fact, so extensive is the occupational make-up of the new legislature that it would be difficult to ascertain immediately what group was not represented.

Lawyers once again—and it appears invariably—gained two seats

more than they had in the 1937 session to boost their total to 42.

The two additions were in the house, the senate quota remaining unchanged.

Only seven doctors—two in the house and five in the senate—are included in the membership of the legislature this session. However, there is decided similarity between this and preceding sessions in both the occupational set-up and legislative experience. One hundred (100) of the new legislators are with previous experience, four con-

trusted with 101 of the 1937 session.

Next to lawyers, real estate, stock and insurance brokers are most heavily represented—28 in all. Merchants, with 22, follow in third place, with salesmen next with 16.

Teachers, usually maintaining about the same percentage of membership, total nine, preceded by 12 foremen, managers, and 10 farmers.

Clerks and public officials were represented respectively by eight and seven legislators while seven manufacturers likewise were included in the membership.

Automobile dealers, garage-men, and gasoline distributors number seven also. And down through the other occupations were:

Painters, plasterers and decorators, six; editors and publishers, five; contractors, four; undertakers, four; dentists, four; machinists,

four; retired, three; ministers, two; policemen, two; barbers, two; civil engineers, two; bank employees, two; railroaders, two; accountants, two; and one each, hotel keeper, secretary, auctioneer, florist, restaurateur, organizer, jeweler, miner, veterinarian, chiropractor, laborer, coal operator, telegrapher, miller, civic worker, forester, examiner, milk dealer, druggist, and lumberman.

AMATEUR NIGHT
The foreman of an electrical repair shop was interviewing a bright boy who was applying for a position.

"Do you know anything at all about electrical apparatus?"
"Yes, sir," was the prompt reply.
"What is an armature?" asked the foreman.
"Oh, that's a guy who sings for Maj. Bowes"
